
MF52B Enamelled Wire NTC

Description

Product features:

- High measurement accuracy for precise temperature sensing
- Compact design with fast thermal response for real-time performance
- Stable operation for long-term reliability
- Excellent interchangeability and consistent product quality
- Cost-effective solution supported by large-scale production

Product applications:

? Air conditioning equipment.

? Heating equipment.

? Electronic thermometer.

? Liquid level sensor.

? Vehicle electronics.

? Electronic desk calendar.

? Cell phone battery.
